chief justice john marshall argued that a constitution requires that only its great outlines should be marked and its important objects designated ours is intended to endure for ages to come and consequently to be adapted to the various crises of human affairs in recent years marshall's great truths have been challenged by proponents of originalism and strict construction such legal thinkers as supreme court justice antonin scalia argue that the constitution must be construed and applied as it was when the framers wrote it in keeping faith with the constitution three legal authorities make the case for marshall's vision they describe their approach as constitutional fidelity not to how the framers would have applied the constitution but to the text and principles of the constitution itself the original understanding of the text is one source of interpretation but not the only one to preserve the meaning and authority of the document to keep it vital applications of the constitution must be shaped by precedent historical experience practical consequence and societal change the authors range across the history of constitutional interpretation to show how this approach has been the source of our greatest advances from brown v board of education to the new deal from the miranda decision to the expansion of women's rights they delve into the complexities of voting rights the malapportionment of legislative districts speech freedoms civil liberties and the war on terror and the evolution of checks and balances the constitution's framers could never have imagined dna global warming or even women's equality yet these and many more realities shape our lives and outlook our constitution will remain vital into our changing future the authors write if judges remain true to this rich tradition of adaptation and fidelity
