1984

this book assesses the role of the doctrine of insurable interest within modern insurance law by examining its rationales and suggesting how shortcomings could be fixed over the centuries english law on insurable interest a combination of statutes and case law has become complex and unclear other jurisdictions have relaxed or even abolished the requirement for an insurable interest yet the uk insurance industry has overwhelmingly supported the retention of the doctrine of insurable interest this book explores whether the traditional justifications for the doctrine the policy against wagering the prevention of moral hazard and the doctrine's relationship with the indemnity principle still stand up to scrutiny and argues that far from being obsolete they have acquired new significance in the global financial markets and following the liberalisation of gambling it is also argued that the doctrine of insurable interest is an integral part of a system of insurance contract law rules and market practice rather than rejecting the doctrine the book recommends a recalibration of insurable interest to afford better pre contractual transparency to a proposer as to the suitability of the policy to his or her interest in the subject matter to be insured providing a powerful defence for the retention of insurable interest this book will appeal to both academics and practitioners working in the field of insurance law

Inside and Outside the Law

2003-12-16

in the past decade people whose bodies genders or sexualities differ from socially expected norms have become more visible and have been granted greater recognition within the law yet despite this many service providers do not have a strong understanding of the social and legal issues that continue to have a significant impact on these diverse groups of people and their relationships and families in order to address this knowledge gap this book brings together research findings from often disparate disciplines into an accessible and useful form for practitioners as well as for researchers academics students and the general public part 1 defines key terms and addresses the psychosocial and legal issues faced by trans or gender diverse intersex and or non heterosexual individuals part 2 looks at the psychosocial and legal aspects of couple relationships part 3 considers parenting and families part 4 discusses practical tips for professionals working with this client group including specific content for lawyers and mediators as a whole this book both questions the presumed neutrality of the law yet insists that it is possible for the law to play a key role in challenging cisgenderism and heterosexism back cover

this book takes a riveting look at how the law responds to that distinctly american dream of immortality while american law provides virtually no protections for the interests we hold most dear our bodies and our reputations when it comes to property interests the american dead have greater control than anywhere else in the world moreover these rights are growing daily from grave robbery to elvis impersonators madoff shows how the law of the dead has a direct impact on how we live madoff examines how the rising power of the american dead enables the deceased to exert control over their wealth forever through grandiose schemes like dynasty trusts and perpetual private

charitable foundations and to control their creative works and identities well into the unforeseeable future madoff explores how the law of the dead can in essence extend the reach of life by granting virtual immortality to individuals all of this comes madoff contends at real costs imposed on the living

2022-04-15

gender and the law provides an ideal introduction to gender and feminist theory for students beginning with an overview of traditional notions of gender the book establishes the key feminist and queer legal theories it provides a basic structure and overview upon which students can build their understanding of some of the complex and controversial topics and debates around gender structured thematically the book explores many fascinating and controversial legal issues including issues of transgender rights equal pay and equality in the workplace societal changes and challenges within the regulation of personal relationships the law surrounding consent and sexual offences the role of gender norms in the criminal courts legal regulation of prostitution and pornography and the ways in which the law has responded to societal changes surrounding reproduction with thinking points and further reading suggestions within each chapter the authors encourage an engagement with critique and theory in order to understand this dynamic and challenging field

Google and the Law

2012-02-23

ideas are the fuel of industry and the entertainment business likewise manufacturers receive suggestions for new products or improvements to existing products and retailers frequently receive ideas for new marketing campaigns many ideas are not new and may be used by anyone without the risk of incurring any legal liability but some ideas are novel and valuable if the originator of a potentially useful idea does not have the financial resources to exploit the idea he or she may submit it to another with the expectation of receiving compensation if the idea is used although an extensive body of intellectual property law exists to protect the rights of inventors authors and businesses that own valuable brands or confidential proprietary information raw ideas receive no protection nevertheless the originator of a potentially useful and marketable idea is not without legal recourse the courts have developed through a long line of common law precedents legal protection for novel and concrete ideas under certain circumstances the originator of an idea can rely on contract law whereby the recipient may expressly or impliedly agree to pay for the idea alternatively if the idea is disclosed in confidence its unauthorized use by the recipient allows the originator of the idea to recover compensation finally some courts have treated the ownership of ideas as quasi property rights

Handbook of Social Media and the Law

2014-11-20

this book is one of the first to link company law to the law of succession by concentrating on family businesses it shows that to understand the legal framework underlying the daily operations of family businesses one needs legal analysis empirical data psychological and sociological knowledge the book works on the premise that since many businesses have been founded by families practitioners need to develop an understanding of the legal background of such businesses and build up experience to be able to create contracts trusts foundations and other legal mechanisms to give shape to systems and procedures for the transfer of shares and control within the family comparing the national legal order techniques and mechanisms in a range of countries the book examines parallel developments in these fields of law across the world finally it demonstrates the room for companies shareholders and the members of a family to develop individual solutions within the legal framework for transferring businesses and shares to the next generation

Gender and the Law

2018-04-17

this volume examines the nature function development and epistemological assumptions of the legal case in an interdisciplinary context using the question of reading as a guiding principle it opens up new ways of understanding case law and the doctrine of precedent by bringing the law into dialogue with the humanities what happens when a legal case is read not only by lawyers but by literary critics by linguists by philosophers or by historians how do film makers and writers adapt and transform legal cases in their work how might one interpret fiction in the context of the historical development of the common law the essays in this volume test the boundaries of the legal case as a genre by inviting perspectives from other disciplines and in doing so also raise more fundamental questions of what constitutes law and legal thinking this book will be of interest to anyone seeking a better understanding of the common law the humanities and the intersection between them

Company Law and the Law of Succession

2015-10-21

written opinions are the primary means by which judges communicate with external actors these sentiments include the parties to the case itself but also more broadly journalists public officials lawyers other judges and increasingly the mass public in creating the law michael k romano and todd a curry examine the extent to which judges tailor their language in order to avoid retribution during their retention and how institutional variations involving intra chamber dynamics may influence the written word of a legal opinion using an extensive dataset that includes the text of all death penalty and education decisions issued by state supreme courts from 1995 2010 romano and curry are the first to examine the connection between retention incentives and language choices they utilize text analysis techniques developed in the field of communications and apply them to the text of judicial decisions in doing so they find that judges write with their audience in mind and emphasize duelling strategies of justification and persuasion in order to please diverse audiences that may be paying attention furthermore the process of drafting a majority opinion is a team exercise and when more individuals are involved in its crafting the product will reflect this complexity this book gives students the tools for understanding how institutional variation affects judicial outcomes and shows how

language relates to decision making in the judiciary more specifically

Reading The Legal Case

2012-08-06

autonomy is often said to be the dominant ethical principle in modern bioethics and it is also important in law respect for autonomy is said to underpin the law of consent which is theoretically designed to protect the right of patients to make decisions based on their own values and for their own reasons the notion that consent underpins beneficent and lawful medical intervention is deeply rooted in the jurisprudence of countries throughout the world however autonomy consent and the law challenges the relationship between consent rules and autonomy arguing that the very nature of the legal process inhibits its ability to respect autonomy specifically in cases where patients argue that their ability to act autonomously has been reduced or denied as a result of the withholding of information which they would have wanted to receive sheila mclean further argues that the bioethical debate about the true nature of autonomy while rich and challenging has had little if any impact on the law using the alleged distinction between the individualistic and the relational models of autonomy as a template the author proposes that while it might be assumed that the version ostensibly preferred by law roughly equivalent to the individualistic model would be transparently and consistently applied in fact courts have vacillated between the two to achieve policy based objectives this is highlighted by examination of four specific areas of the law which most readily lend themselves to consideration of the application of the autonomy principle namely refusal of life sustaining treatment and assisted dying maternal foetal issues genetics and transplantation this book will be of great interest to scholars of medical law and bioethics

milner ball takes an experimental journey into the inner life of law and the careers of men and women who use it to help disadvantaged people and to strengthen the fabric of the communities in which they live at the center of this book are portraits of seven contemporary legal practitioners lawyers judges and advocates who have devoted their lives to an unconventional vision of the law in their work in areas from new york city housing court to the warm springs reservation in oregon the law exemplifies fundamental human values manifestations of what ball calls the word the presence of god in life to develop this concept of the word ball explores its workings in familiar literary and biblical texts primarily william faulkner s the sound and the fury toni morrison s beloved the book of isaiah and the gospel of mark

Creating the Law

2019-09-16

this volume surveys 150 law books of fundamental importance in the history of western legal literature and culture the entries are organized in three sections the first dealing with the transitional period of fifteenth century editions of medieval authorities the second spanning the early modern period from the sixteenth to the eighteenth century and the third focusing on the nineteenth and twentieth centuries the contributors are scholars from all over the world each old book is analyzed by a recognized specialist in the specific field of interest individual entries give a short biography of the author and discuss the significance of the works in the time and setting of their publication and in their broader influence on the development of law worldwide introductory essays explore the

development of western legal traditions especially the influence of the english common law and of roman and canon law on legal writers and the borrowings and interaction between them the book goes beyond the study of institutions and traditions of individual countries to chart a broader perspective on the transmission of legal concepts across legal political and geographical boundaries examining the branches of this genealogical tree of books makes clear their pervasive influence on modern legal systems including attempts at rationalizing custom or creating new hybrid systems by transplanting western legal concepts into other jurisdictions

The Law and the Lady

1884

what is the meaning of punishment today where is the limit that separates it from the cruel and unusual in legal discourse the distinction between punishment and vengeance punishment being the measured use of legally sanctioned violence and vengeance being a use of violence that has no measure is expressed by the idea of cruel and unusual punishment this phrase was originally contained in the english bill of rights 1689 but it and versions of it has since found its way into numerous constitutions and declarations including article 5 of the universal declaration of human rights as well as the amendment to the us constitution clearly in order for the use of violence to be legitimate it must be subject to limitation the difficulty is that the determination of this limit should be objective but it is not and its application in punitive practice is constituted by a host of extra legal factors and social and political structures it is this essential contestability of the limit which distinguishes punishment from violence that this book addresses and including contributions from a range of internationally renowned scholars it offers a plurality of original and important responses to the contemporary question of the relationship between punishment and the limits of law
